

# UNDERSTANDING HOW BC FAIR PHARMACARE WORKS WITH YOUR DRUG COVERAGE

## Here's what you need to know

British Columbia's Fair Pharmacare program is available to everyone who lives in British Columbia. The program helps pay for the costs of prescription drugs. Your Sun Life plan usually covers the cost of drugs that the province doesn't pay for. We'll make sure that when we process your claims, you get payment from the provincial program when you can. To do that, you need to make sure you've registered for Fair Pharmacare and let us know when you have. That way, we can make sure we pay your claims without any interruptions.

## Fair Pharmacare and your group plan

Every year, you need to pay some of your eligible prescription drug costs. This is known as your annual Pharmacare deductible. The amount of your deductible is based on your family's income and number of dependents. You can find an estimate of your annual deductible through the [Fair Pharmacare calculator](#). Keep in mind that your group benefits drug plan may pay for most of the cost of your Pharmacare deductible.

## Here's what you need to do

1. Register for Fair Pharmacare. See the section below on how to do this.
2. Until we hear from you that you've registered, we'll pay claims up to a threshold. See below on how to tell us you've registered for Fair Pharmacare.
3. Either Sun Life or your pharmacy will let you know when you're close to the threshold, and that you need to provide proof you're registered with Fair Pharmacare.
4. If you provide proof of registration before you reach the threshold, we'll continue to pay your claims.
5. If you haven't provided proof and reach the threshold, we won't be able to pay anymore of your prescription drug claims. Once we hear from you, we'll start paying your claims again.
