\$3.M+ Tips

Received by Team Members

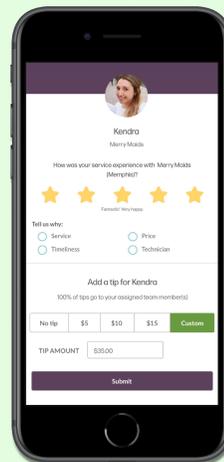

“...We've seen an **increase in weekly take-home tips of about \$20 per person.**

We really enjoy it. It cuts down on the phone calls for tips, it's just easy and makes sense.”

“There's been about **80-90% increase** in take-home tips on a weekly basis.”

“We've seen a significant increase in tipping with Dispatch. **In one quarter alone we collected \$7,000+ worth of tips...**

Which helps us **recruit**, because not only are they getting the wages we can provide to them, but their clients are also rewarding them.

Personally, I think you would be crazy not to invest in Dispatch because it just simplifies running your business, especially in this COVID world.”
