

# AlphaSense, the AI-powered Corporate Research Platform

Knowledge workers are suffering from information overload. The smartest minds need software that can keep pace with them. **AlphaSense helps agile organizations make better strategic decisions and gain a competitive edge.**

## Benefits

Conduct research and analysis in record time whilst capturing all language variations in your research (eliminate FOMI - fear of missing information).

Find out what companies are saying about any subject and monitor new developments to win in real time.

Increase confidence in information that powers strategic decisions

Access all content – broker research, company filings, earnings call transcripts, regulatory data, premium news, trade journals and internal content in one easy-to-use interface

Instantly extract trending players, industry landscapes, themes, and sentiment in your market analysis.

Access market-leading research for over 1000 broker research firms without worrying about caps and paywalls.

## Augmented Intelligence impacts your bottom line

**THE MOST AGILE ORGANIZATION WINS.** Stop wasting time digging for research across multiple platforms. AlphaSense intelligently searches through all your sources in one place.

**DO MORE WITH LESS.** Cut your aftermarket research costs without losing access to high-quality, in-depth coverage on companies and industries across the globe.

**It would take us hours to pull up what you pulled up in a few minutes.**

— SR Corp Strategist & BD \$50 billion annual revenue.

## THEMATIC SEARCH

Run a keyword search to uncover what companies are saying about any topic or trend. Reveal the key players talking about a topic you're following.

## PRIVATE & PUBLIC COMPANY SEARCH

Surface key developments and disclosures for 68,000 public companies and structured data/ financials on 37,000 public and 310,000 private companies.

## INTEGRATIONS

Upload any document to your private library and apply AI- search to any document or note.

## THEME AND KPI EXTRACTION

Leverage AlphaSense's deep learning algorithm to uncover Key performance indicators and themes quickly and at scale.

## EMAIL ALERTS

Save searches and get meaningful email alerts to stay on top of specific developments related to a company, peer group or industry.

## SENTIMENT

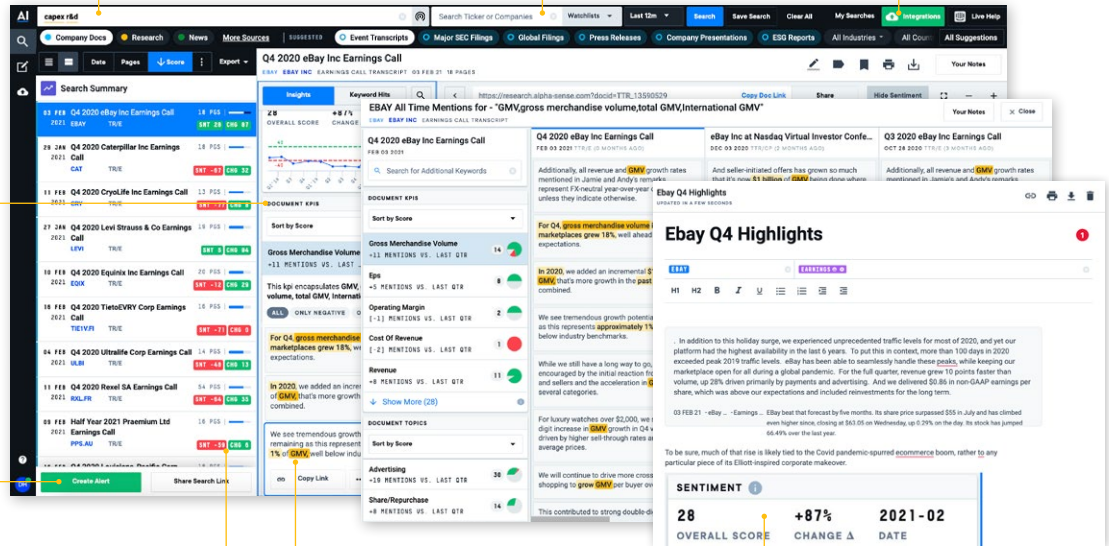

Isolate emerging trends and market sentiment to reveal the most negative or most positive topics in any transcript.

## SMART SYNONYMS

Capture all language variations of critical data points to include synonyms, while screening out incorrect results for keywords with multiple meanings.

## NOTEBOOK

Record and edit shareable insights as you research in AlphaSense with Notebook via the split-view window.

## Access and search across high-value curated content from over 10,000 sources:

- SEC and global filings
- Conference call transcripts
- Investor relations presentations (30+ quarters of historic presentations)
- Press releases—public and private companies
- Broker research—full library of reports from sell-side and independent research providers
- News sources—thousands of news publications
- 1,800+ trade journals, etc.

## Enhance your team's ability to create market-centric insights

AlphaSense's all-in-one platform lets you create market-moving strategies:

- Highlight, annotate and take notes directly on the AlphaSense platform to easily recall key insights later
- Build off of peers' notes and content for greater team productivity
- Leverage table extraction tools to streamline your analysis quarter-over-quarter
- Expand your search capabilities to external sources not already in AlphaSense via RSS feed reader
- Upload your own content (e.g., Evernote, OneNote, SharePoint, email) and make it searchable through AlphaSense's finely-tuned algorithms
